# InfiniTV 6 PCIe Quick Install Guide

1. Obtain a CableCARD from your Cable TV provider

- Call or visit your cable TV provider and order a multi-stream CableCARD (M-Card) for a Ceton InfiniTV OCUR digital cable tuner.
- **Insert the CableCARD,** with the barcode side down, into the CableCARD slot in the back of the InfiniTV 6 PCIe.

2. Install the Ceton InfiniTV 6 card in your PC

- Turn the PC off and disconnect the power cable.
- **Install the Ceton InfiniTV 6** in any open PCIe slot - PCIe x1, x4, x8 or x16.
- Push on (don't screw on) the small end of the supplied coax adapter cable to the InfiniTV 6 and connect the large end to an RG-6 coax cable from the cable TV outlet. Be careful not to bend the coax adapter cable to extreme angles at the back of the PC.
- Plug in and power up the PC.

3. Install the Ceton InfiniTV software

- Download and run the **Ceton InfiniTV Installer** for the version of Windows you are using from the following link: http://www.cetoncorp.com/infinitv/support/.

4. Run the Microsoft Digital Cable Advisor tool

- Start **Windows Media Center** and navigate to **Extras** / **Extras Gallery.**
- Run the **Digital Cable Advisor** and follow all instructions.

5. Setup Windows Media Center for TV

- In Media Center, navigate to **Tasks** / **Settings** / **TV** / **TV Signal** / **Set Up TV Signal**.
- Run through the standard **Set Up TV Signal** process in Media Center, which will take several minutes.
- **Please note**: While Microsoft's Windows Firewall is automatically configured to receive cable TV video, third-party Firewall and Anti-virus programs like Norton or McAfee must be manually configured or disabled in order to receive video from cable TV. The required network port settings can be found in the **Detailed InfiniTV Installation Guide** at *www.cetoncorp.com/infinitv/support/*.
- **Activate your CableCARD**. Call your cable operator when prompted by Media Center setup (a phone number may be displayed on the screen) and tell them you need to *pair and activate a CableCARD with the Ceton InfiniTV OCUR digital cable tuner*.
- Provide your cable operator with information from the TV Setup screen. CableCARD activation and pairing status information can also be found on the *CableCARD* tab in the **Ceton Diagnostics** at **Start** / **All Programs** / **Ceton InfiniTV** / **Ceton Diagnostics**. **Note**: you only need to pair the CableCARD and InfiniTV with your cable operator once.
- Choose the appropriate program guide data for your local cable TV system.

6. Start enjoying 6 live channels of HDTV at once!

- Go to **Media Center** / **Live TV** and watch your favorite cable TV programs, or
- Go to **Media Center** / **Guide** and record up to six HD channels at once!
