Ceton Corporation

Ceton is the world leader in digital cable tuner solutions for the PC, with advanced technology that turns the home PC into a powerful entertainment hub to watch, record and stream premium cable TV programming to every TV in the home. Ceton solutions eliminate the need for cable set-top boxes, DVRs, DVR service fees and content streaming devices, by bringing premium cable TV services to the PC, where content can be accessed and enjoyed throughout the home.

Ceton combines stellar hardware and software engineering capabilities with market-making technology, and is extending its technology platform to develop the next generation of in-home digital entertainment and communication solutions. From digital cable tuners to whole-home entertainment solutions and devices, Ceton is unleashing a new generation of in-home connected entertainment and communication services.

Ceton Digital Cable Tuners

Turn a Windows 7-based PC into the ultimate entertainment solution for your TV

A Ceton InfiniTV 4 device connected to a Windows 7 PC brings you features you can't get from your cable set-top box, including:

- **Four HDTV tuners:** watch and record up to four different shows simultaneously
- **Expandable Storage:** so you never run out of room to record shows or have to delete shows you haven't yet watched
- **Flexibility:** access all your TV, video and media from one device, including premium high definition cable channels, photos, music and home videos, and even streaming services such as Netflix, Hulu, YouTube and any Internet video service you can access online
- **Whole-Home Entertainment:** one DVR for all your TV sets* means you can begin watching Dexter on Showtime® in the family room and finish watching it in the bedroom, since all shows are stored on one central PC.

* Requires Media Center Extender(s) on secondary TV sets

FEATURES

Watch and record four channels of cable HDTV

Receive all cable channels, including premium channels like HBO®, Showtime® and Starz®

Cable TV and Internet TV available through the PC for viewing on the living room HDTV

Eliminate costly monthly set-top box rental and DVR services fees

Watch and record different cable channels on multiple PCs and/or Media Center Extenders like the Xbox 360 using the home network, all from a single cable connection*

Works with any U.S. cable TV provider
