WHOLE-HOME SERVICES*

Pause a show in one room and continue watching in another

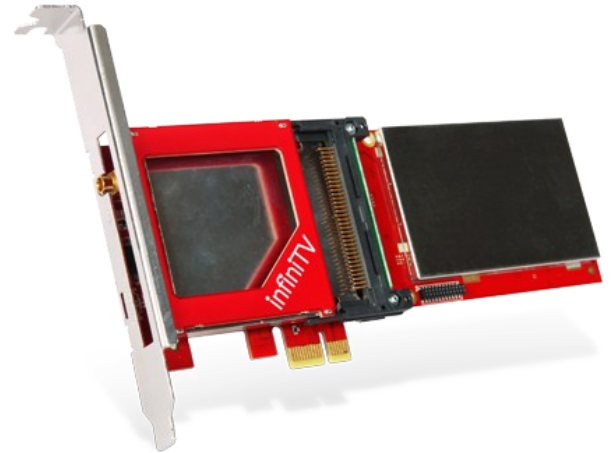

Watch live and recorded TV on every TV in your home

ELIMINATE COSTLY MONTHLY FEES

No set-top box lease fees

No DVR service fees

InfiniTV 4 PCIe InfiniTV 4 PCIe is the world's first multi-tuner solution for bringing digital cable TV service to the PC, including support for premium cable channels. It turns your Windows 7 desktop, tower, home theater PC or slimline entertainment PC into the ultimate entertainment platform for television.

InfiniTV 4 PCIe enables you to watch and record up to four live channels of HDTV at once, and stream live HD channels or recordings to multiple HDTVs throughout the home*.

Replace your cable set-top boxes and their expensive monthly rental fees and enjoy premium cable shows on TV sets throughout the home*, all from a single device.

With the Ceton InfiniTV 4 PCIe your PC becomes a complete entertainment platform for all your media, including premium cable TV.

- Receive all cable channels, including premium channels like HBO® and Showtime®
- Works with any U.S. cable provider
- Connects to high-definition TV sets as well as PC displays
- Ideal for Desktop, Tower and Slimline PCs
- Network Tuner capable
- Supports Switched Digital Video and Tuning Adapters
- Works with CableCARD™ and Windows Media Center

* Requires Media Center Extender(s) on secondary TV sets

System Requirements

- PC with Microsoft Windows 7 Home Premium, Windows 7 Professional or Windows 7 Ultimate
- 2.0 GHz or faster dual core or quad core processor – either 32-bit (x86) or 64-bit (x64)
